500 ml PET

STILL & SPARKLING

The classic 500 ml format, available in still and sparkling, designed for everyday hydration across all consumption occasions. Perfect for on-the-go use, vending machines, convenience stores, gyms, and quick-service restaurants, it is also widely adopted in retail multipacks and large-scale distribution.

This format has consistently been our number one export product, proven across international markets for its versatility and strong rotation. Its elegant, flowing design gives the bottle a distinctive and well-balanced visual identity, enhancing shelf presence and making it immediately recognizable to consumers. A perfect combination of functionality, aesthetics, and commercial performance.

Up to 49,410 bottles per 40' container (always within a maximum legal payload of 26 tons), ensuring efficient and scalable supply for high-volume distribution.

750 ml GLASS

PREMIUM

A 750 ml premium glass bottle representing the highest expression of Acqua Eva in terms of design, identity, and perceived quality. Created for fine dining restaurants, luxury hotels, and exclusive events, it elevates the drinking experience through both aesthetics and presence.

The bottle features a sculpted base inspired by the Monviso, the very mountain where Acqua Eva originates, creating a distinctive and authentic connection between product and source.

This iconic detail transforms the bottle into a true statement piece, reinforcing brand recognition and premium positioning on every table. Its sleek, elongated silhouette enhances elegance and balance, making it a natural choice for environments where visual impact and refinement are essential.

330 ml GLASS PREMIUM

A 330 ml premium glass bottle that translates the iconic design of our flagship format into a more compact and versatile size. Featuring the sculpted base inspired by the *Monviso*, it preserves the same distinctive identity and strong visual impact.

Ideal for upscale venues, boutique hospitality, and refined single-serve occasions, it delivers a premium experience while maintaining elegance and brand recognition in a smaller format. Up to 37,800 bottles per 40' container (within a maximum legal payload of 26 tons).

750 ml GLASS CLASSIC

A 750 ml glass bottle inspired by the classic wine bottle style (bordoese), designed to deliver versatility across both everyday dining and more formal occasions. Widely used in restaurants, catering, and premium retail, it represents a reliable and familiar choice within the HoReCa or retail channel.

Its elegant pearl-finish label, combined with clean and well-balanced proportions, reflects the brand's alpine origin while reinforcing a refined, wine-like table presence. A format that blends tradition and identity, making it suitable for continuous service as well as more elevated dining settings.

Up to 22,140 bottles per 40' container.

375 ml GLASS CLASSIC

A 375 ml glass bottle designed for individual servings in upscale environments. Ideal for fine dining restaurants, hotel room service, minibars, and premium airline or railway catering, it ensures freshness and a more personalized guest experience. Up to 35,280 bottles per 40' container (within a maximum legal payload of 26 tons).

250 ml GLASS TRADITION

A 250 ml glass bottle with a distinctive vintage-inspired design, combining compact elegance with a strong and recognizable identity. A true export gem, highly appreciated across international markets for its versatility and premium positioning.

Ideal for hotel minibars, airline premium cabins, conferences, spa lounges, and welcome drinks, it delivers a refined single-serve experience in a compact format. The transparent glass enhances the perception of purity, while the green version is specifically designed to elevate extra-sparkling water, enhancing both carbonation and visual appeal.

Up to 58,968 bottles per 40' container (within a maximum legal payload of 26 tons), offering exceptional volume efficiency for large-scale distribution.
